# The Power of PURPLE

Why is Purple the recognized colour for epilepsy?

THE CENTER FOR  
**EPILEPSY & SEIZURE EDUCATION**  
IN BRITISH COLUMBIA

The colour purple was chosen because the lavender flower is a special symbol for epilepsy awareness. Lavender isn't just a pretty flower; it stands for things that are hidden, just like epilepsy.

Sometimes, people can't see epilepsy, making it seem mysterious and a bit scary to others.

By using the color purple and talking about epilepsy openly, we can help everyone understand it better. This way, we can get rid of the fear and make sure everyone who has epilepsy feels supported and accepted.
